Symphony Full Orchestra	1952	1988	1984
<p>Current brain research indicates that many people naturally think musically - especially as young children. As parents and educators it is imperative that we value creative thinking in children and ensure that their capacities for learning music are as fully developed as possible.</p>			
<p><i>In order to achieve this goal, music classes taught by specialists should be part of every student's school day.</i></p>
